MINIM

MINIM ACRYLICS is a line of acrylic paint with a new and advanced formulation based on polymer resins and excellent pigments.

Combining innovation and tradition together with manufacturers with 150 years of experience.

MINIM ACRYLICS is a new formulation of acrylic paint.

Great gripping power on different surfaces such as wood, paper, cardboard, plaster, resin, plastic, 3D materials, etc.

The drying time is longer, avoiding marks and borders, and allowing color blends to be made.

Mixed with water or our thinner you can use them with an airbrush and as watercolors.

They are easy to mix and apply, ideal for children's work, school work and crafts. LUMINOUS, SILK, and EXTRA MATTE finish.

MINIM ACRYLICS is involved in the integration and development of people with special needs and we are proud that they are part of our entire handling and storage system.

PAINT SETS

The paint sets have 9 colors.There are multiple combinations depending on the artistic discipline; from traditional brush painting, crafts, modeling to airbrushing.

These sets will be assembled in the stores based on the customer's needs, thus avoiding duplication of products on the display and in boxes, in addition to solving the storage problem.

Stores and distributors will be provided with generic set boxes for all possible combinations and covers of different modalities.

Cardboard box + selection of paintings + cover art box.

Example of paint sets, Paint, Art & Craft, Modellers.
